Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 15 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 15 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claims 40, 44, and 48, change "a group" to --the group--.

In claims 40, 44, and 48, line 2, after "following" add --steps in --.

In claims 41, 42, and 43, change "claim 1" to --claim 40--.

In claims 45, 46, and 47, change "claim 5" to --claim 44--.

In claims 49, 50, 51, and 52, change "claim 9" to --claim 48--.

In claims 43, 47, and 52, before "billet" add --the --.

2. The following is an examiner's statement of reasons for allowance: The prior art neither teaches nor suggests the method for producing starting stock for gun frames and gun components including the sequence of steps of mixing an alloy with the claimed composition, extruding and forging the alloy into the gun component, solution heat treating the component, quenching the component, and artificially aging the component. This results in a gun frame or component with a yield strength value of at least 80ksi, which is higher than the values achieved in prior art methods, specifically the method of Hunt, Jr. et al., wherein the highest reasonably disclosed yield strength is 73ksi for forgings. Furthermore, Hunt, Jr. et al. does not teach using the alloy to create gun frames or gun components, as Hunt, Jr. et al. is applied only to airframe

Art Unit: 1742

components. With regards to claim 44, the prior art neither teaches nor suggests the method for producing starting stock for gun frames and gun components including the sequence of steps of mixing an alloy with the claimed composition, forging the alloy into the gun component, solution heat treating the component, quenching the component, and artificially aging the component to obtain starting stock for gun frames and components having a yield strength of at least 80ksi. With regards to claim 48, the prior art neither teaches nor suggests the method for producing starting stock for gun frames and gun components including the sequence of steps of mixing an alloy with the claimed composition, extruding and machining the alloy into the gun component, solution heat treating the component, quenching the component, and artificially aging the component to obtain starting stock for gun frames and components having a yield strength of at least 80ksi. Because the combination of the alloy composition, specific processing steps in the claimed sequence, and use of that combination in making gun frames and components is neither taught or suggested by the prior art, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
